

Neotech Institute of Pharmacy

Presentation of Students Product in SSIP

Date:19/06/2024

On 19th June 2024, Institute Innovation Council-Neotech Institute of Pharmacy (IIC -NIPH) has send the students for “SSIP scholarship Program” held at Dhanwantri College, Kim .

The primary objective of sending students to represent their projects at the SSIP event at Dhanwantri College was to showcase their innovative and practical solutions, thereby highlighting their creativity and problem-solving abilities. This participation aimed to promote academic excellence, foster networking with industry professionals and peers, and enhance the institution’s reputation as a hub of innovation. Additionally, the event offered students valuable opportunities to receive constructive feedback, which is essential for refining their projects and improving their research skills.

The benefits of this participation were multifaceted. Students gained increased visibility and recognition for their hard work, developed critical skills in public speaking and presentation, and received motivation to pursue their research with greater enthusiasm. The exposure to industry experts and academic professionals contributed to their professional growth and provided insights into potential career paths. For the institution, the successful representation at the event bolstered its reputation, potentially attracting new students, faculty, and funding opportunities while demonstrating the high quality of education and research provided.
