STTP on “Engineering Drawing Techniques” for industrial application

Date: 4th February 2025 to 8th February 2025

The overall activity of an STTP on “Engineering Drawing Techniques” would typically be structured to provide both theoretical understanding and practical skills in a series of focused sessions, workshops, and hands-on activities. The aim is to guide participants through the essentials of engineering drawing, providing a comprehensive learning experience. The event was a great success, and the students' enthusiastic participation reflected their commitment to promoting health awareness within the campus community.
